☐ 3.8 Address fish and wildlife needs in renewable energy development. ☐ 3.9 Foster international collaboration for landscape conservation.

Accelerating Climate Change.

Review the <u>USFWS: Rising to the Urgent Challenge – Strategic Plan for Responding to</u>

33. Provide specific information about how your project addresses the climate change strategy you checked in question 32. *

34. Would an existing tribal, commercial, recreational, or subsistence fishery be enhanced as a result of the project? If yes, please describe. If not, is there a future fishery that would potentially be restored through increased habitat as a result of this project? If so, describe.
